INTERNSHIP OFFER LETTER

Internship Start Sate: 12-03-2026
Internship End Date: 12-06-2026

Dear Ayush Bhatt,

We are pleased to extend to you this offer for the position of **Web Developer Intern** at **Amdox Technologies**, a forward-looking product-based software company committed to driving innovation through advanced technologies and practical learning. This internship is designed to equip you with real-world exposure to data-driven projects, structured mentorship, and technical skill-building aligned with your academic and career goals.

Your selection is a testament to your demonstrated potential, technical aptitude, and enthusiasm for learning. At Amdox Technologies, we foster a culture centered on collaboration, continuous improvement, and future-focused problem solving, where interns actively contribute to meaningful data initiatives from day one.

As a member of our Web Development team, you will work on real-time development projects, contributing to both front-end and back-end tasks, integrating APIs, and building responsive web applications that enhance our digital products. We are confident that this opportunity will play a key role in shaping your technical and professional journey, and we look forward to your enthusiasm, attention to detail, and dedication to writing clean, efficient code.

Internship Details:

- **Position:** Web Developer Intern
- **Working Hours:** Flexible / As per company policy
- **Duration:** 3 Months
- **Supervisor:** Mr. Sunil Kumar
- **Working Days:** Monday to Friday
- **Time of training:** Evening
- **Project Timing:** Flexible
- **Stipend:** Your stipend will be up to INR 10000/Month for the internship period.

Key Responsibilities

As a Web Development Intern at Amdox Technologies, you will play a vital role in assisting our software engineering team in building scalable, efficient, and innovative web applications. Your responsibilities will include:

- Assisting in the development of responsive, high-performance web applications using modern technologies such as HTML, CSS, JavaScript, React, Node.js, and databases.
- Collaborating with the UI/UX team to convert wireframes and design mockups into functional user interfaces.
- Writing clean, modular, and reusable code that follows industry standards and best practices.
- Integrating RESTful APIs and backend services to enable dynamic and interactive features.
- Participating in code reviews, debugging, and performance tuning to maintain application quality.
- Maintaining up-to-date documentation of code, technical specs, and development progress in an agile setup.
- Joining team meetings, sprint reviews, and collaborative efforts to ensure timely project delivery.
- Enhancing your skills through internal training, mentor guidance, and work on real-world development tasks.

Training & Evaluation:

- Your internship experience will be structured around:
- Weekly development tasks (HTML/CSS > JavaScript > React > APIs > Full-Stack Development)
- Assignment to a real-time project based on your skill level and area of expertise
- Mentorship from senior web developers
- Performance reviews at mid-point and conclusion
- Feedback sessions with your assigned mentor

Expected Outcomes – Web Development:

- By the end of the internship, you will:
- Build a fully functional, responsive web application
- Gain hands-on experience with front-end and back-end technologies
- Understand deployment workflows and basic DevOps concepts
- Receive a certificate and project-based recommendation

Confidentiality and Code of Conduct:

1. You will be assigned a Project Mentor at Amdox Technologies, under whose supervision you will carry out your assigned tasks and responsibilities throughout the internship.

2. You are expected to complete all assigned work in a timely and professional manner, maintaining the quality standards, discipline, and ethical conduct in line with the values and expectations of Amdox Technologies.

3. Please note that this internship engagement does not constitute an employer-employee relationship. Accordingly, you will not be entitled to any monetary allowances, employee benefits, or permanent employment guarantees, unless explicitly stated or offered post-internship based on performance.

4. During your internship, you are required to adhere strictly to all internal policies, guidelines, and regulations of Amdox Technologies. You must also ensure the confidentiality, integrity, and security of any proprietary information, project data, source code, intellectual property, or documentation shared with you in the course of your work.

5. A detailed overview of your obligations related to Confidentiality, Data Security, and Intellectual Property Rights is provided in Annexure A. You are expected to read and acknowledge this document prior to the commencement of your internship.

6. If you are currently enrolled in an academic program, you may attend college/university sessions during the internship period only with the prior consent of your Project Mentor, ensuring it does not interfere with your internship deliverables or commitments.

Acceptance and Onboarding:

Please confirm your acceptance of this internship offer using the Offer Acceptance Link provided in your email, within the specified deadline. Failure to respond within the stipulated timeframe will result in the automatic revocation of this offer.

We are excited to welcome you to the Amdox Technologies team and look forward to a mutually enriching and productive internship experience.
